Strathmore Centre For Local Rationing Board

Strathmore has been selected centre for this district, boundaries of which are East from Calgary, West to Dalemend, south to the Bow River, East to Bassano and North to Irricana.

A first glance will show the size of this territory.

The Town Council has written Ottawa for further instructions, and as soon as this word comes from Donald Gordon, a meeting will be called to appoint representatives for the various localities and formulate necessary plans.

This will be an important meeting and merits the interest of all loyal citizens of the town and districts included in this area. Watch for date of meeting.

LOCAL RATION BOARDS PLANNED

Mayors and reeves in over 500 Canadian centres will contribute to the war effort as chairmen of the new local ration boards to be set up for the administration of rationing to meet local conditions, it is announced by the Wartime Prices and Trade Board.

Alberta will have 35 local ration boards, extending from Dawson Creek in the north to Cardston in the south. Edmonton will be provincial headquarters. Panels of representative men and women will form the boards throughout the country. It is expected that the new boards will be functioning by November 1.

Replacement of lost ration books and issuing of extra rations for special purposes, change of address, temporary cards for tourists, ration cards for soldiers on leave, are among the functions planned for the local boards.

KILLED IN ACTION

Official notification of the death of their son, Sergt. Pilot Neil MacIver, 21, killed in air operations overseas October 13, was received Thursday by Mr. and Mrs. Norman MacIver, 1408 4th St. N. W.

Sergt. MacIver was born in Calgary and attended the Balmoral public and Crescent Heights high schools. He enlisted in the R. C. A. F. in March, 1941, and trained at Brandon and High River, receiving his wings at Calgary. He went overseas last December.

A brother, Flight Sergt. Norman MacIver is a sergeant instructor at the No. 15 S. F. T. S., Clarendon.

Funeral of the late Sergt. MacIver took place Saturday, Oct. 17, at Brig cemetery, Brig Lincolnshire England. Sergt. Pilot Neil MacIver, a nephew of Mrs. W. S. Paterson was a frequent visitor to Strathmore delighting our audiences on various occasions with his skillful playing on the Bagpipes. A Burns Banquet was not complete without Neil MacIver with his Bagpipes and Miss Janet McGregor's clever dancing.

Strathmore citizens extend their condolence to the bereaved family.

A bishop attended a banquet and a clumsy waiter dropped a plate of hot soup in his lap. The clergyman glanced around with a look of agony and exclaimed:—"With some layman please say something appropriate."

TO ALL GOOD CITIZENS OF STRATHMORE AND DISTRICT

As in many other Districts, due to the late harvest and acute labor shortage, the Victory Loan Campaign in the Strathmore Unit, will, of necessity, be somewhat delayed. It is hoped that it will be in full swing by Monday of next week and the Committee feel that the objective set for this District, although a greatly increased one, will be more than met before the Campaign ends on November 7th.

Strathmore and District has an extremely proud record to uphold and lead the Province in the last Victory Loan, in point of number of Bonds sold in the rural areas and also more than doubled their objective. This was due to good team work and the splendid spirit of co-operation and good fellowship which has always existed between our town and country. Strathmore and District has never failed yet in any worthy cause.

Meet your Canvaser with a cheery smile and do your bit. It is the least we can do. It will make him happy. It will make the Committee happy and better still, it will make our boys who have offered their lives happier still and proud to say they come from Strathmore District which will never let them down.

On behalf of the Committee,
E. N. RIDLEY, Chairman.

Committee—
E. N. Ridley, Chairman.
Jas. Harwood, Vice-Chairman.
F. G. Fulton, Unit Organizer.
Geo. Quirin, H. McGregor, Thos. E. Wright, Morton McElroy.

PANEL DISCUSSION OF ENTERPRIZE SYSTEM ABLY CONDUCTED

The first meeting of the Home and School Association following organization was held in the High School Tuesday evening. President S. R. Hunt was in the chair.

The minutes of the previous meeting were read by Mrs. Geo. Quirin and business arising therefrom was transacted after which Principal Crowther explained that the programme committee had chosen for the evening's entertainment, a Panel Discussion of the Enterprize System, with Mr. MacLeod opening the discussion.

Others assisting were Rev. E. H. Hoad, Messrs S.H. Crowther, and J. Crellin. In opening his discussion Mr. MacLeod gave the following definition of an Enterprize. "The Enterprize is a series of purposeful activities arising out of the pupil's needs and interests, and revolving about one central theme." That definition is as concise and com-

plete as words can make it, and is a very illuminating definition. The speaker said activity, both mental and physical are combined in an enterprize, and if the enterprize solves a problem it has served a purposeful use to society. Mr. MacLeod said teachers are sometimes prone to go too far a field for enterprize subjects, whereas all kinds of interesting problems may be found near at home which would prove of greater value to the pupils.

It should be the aim of the teacher to single out the enterprize that suits the pupils, revolving around one central theme of the pupil's needs and interests. The speaker approved of the modern set-up as giving a better training for Democracy as the children are consulted and encouraged to think things through. Options are allowed and a pupil is encouraged to develop the talents he has and so the system tends towards a more all round development.

Mr. Hoad was the next speaker and stated in looking back over the previous years the system seemed deametrically opposed to the individual training of the child. The school room is a cross section of the community, and in the carrying out of an enterprize a certain amount of freedom must be allowed. He stated there are now infinitely more reference books provided for the use of the pupil which trains them in looking up their own information. School Libraries are a pet hobby of Mr. MacLeod who stated that in the Wheatland S. D. \$25 per. room per. year is granted for the purchase of new books.

Mr. Crellin as next speaker, who has had practical experience in teaching the enterprize plan spoke of one Enterprize he conducted on the North American Indian; he arranged that the pupils work in groups to prepare their report in doing which they consulted five or six libraries. Mr. Crellin stated the enterprize included various projects of life, as health, cooperation etc. and while the enterprize system does not prove perfect in every particular on the whole he felt more was accomplished in organization and fitting the pupil to work with others.

Referring to reading, Mr. Crowther stated that many senior pupils read as many books in one week as they formerly read in a year.

Mr. Crowther brought up the question of discipline in relation to enterprize and stated there is more knowledge of child psychology in teaching today and while there is ample room for much more, this is a forward step. Mr. Hoad said that parents of a strong willed child often set out to "break the spirit" of the child and in so doing often produced a little rebel. Pupils are remaining in school for a longer period now whereas in Perrin Baker's term as Minister of education, Grade 8 was considered a fair education for the average boy or girl, now they are encouraged to continue to Grade XII.

Several questions were asked by the audience, who though not a large one, was a most interested one. Mr. Hunt expressed the thanks of the meeting to the men who carried on the discussion and the meeting closed with the National Anthem.

"Do not draw me without justice,
Do not sheath me without honour."

Courageous young hands are stretched out to grip it for the cause of justice and honour. Be sure it is sharp when you put it in those hands.

"Hitler's transportation difficulties are increasing as his army moves deeper and deeper into Russia." — Lord Selborne.

U. S. SECRETARY OF AGRICULTURE SPEAKS TO CANADIAN FARMERS

The CBC Farm Broadcast department has announced that U. S. Secretary of Agriculture Claude Wickard will speak to Canadian farmers on National Farm Radio Forum, Monday, October 26, at 9:30 p.m. CDT. (\$3.00 p.m. MDT). This programme will be heard over Station, CBK Watrous (540 Kcs) and other stations of the Western network. Marking the first time that American agriculture through one of its officials, has directed specific attention to Canadian farm problems, this broadcast is expected to stimulate lively discussion

in Farm Forums in all parts of the Dominion. Heard on the same programme will be Glenn Talbott, head of the National Farmers' Union, the largest organization of small farmers in the States.

Mr. Talbott will voice the opinion of the farmer while Secretary Wickard speaks for the government. Coming at a time when so much depends on the active co-operation of the U. S. and Canada, this broadcast is expected to set new precedents in the frank discussion of common problems.

THE OUT-SIDE

● Alberta's Opportunity—

(The Lethbridge Herald)

It is a duty, besides being a great opportunity, for the farmers of Alberta to expend all possible energy to fill the new 675,000,000 pound bacon quota for Great Britain. It is a great opportunity, especially, for farmers of South Alberta who have the soil and the climate, and this year a huge feed surplus, making it possible to increase greatly their output of hogs.

Alberta today leads all Canada in hog production, and with the encouragement of a 10 per cent rise in price we can do a lot better. We have doubled our hog production since the war began, and if all farmers were to consider seriously that it is their duty to do so, we could double it again.

● Ottawa Orders Six Holidays—

Six days, including Christmas and New Year's have been set aside by order-in-council as only days, apart from Sunday, which employees should observe as statutory holidays, it was announced by Hon. Humphrey Mitchell, federal minister of labor. The days are New Year's Day, Good Friday, July 1st, Labour Day, Thanksgiving Day and Christmas.

● "Pop" tablets are given to soldiers which enable them to continue fighting for a long gime without becoming exhausted.

● But Not This Year—

A Swedish farmer who wanted to make his permanent home in this country appeared for his naturalization papers.

Inquirer—Are you satisfied with the general conditions of this country?
Swede—Yah, sure.

Inquirer—And does this government of ours suit you?

Swede—Well, yah, mostly, only I lak to see more rain.

● Beekeepers who wish to winter their hives, but do not have enough stores on them, may obtain permits to purchase sugar for this purpose, by writing to W. G. le Maistre, Provincial Apiarist, Edmonton. The letter must state the number of hives to be wintered and the amount of sugar necessary to supply the required amount of stores.

The Alberta Beekeepers' Association Annual Convention is being held in Calgary on November 5th and 6th at the Empress Hotel. Many matters important to beekeepers will be discussed.

Premier Aberhart will be back on the air commencing October 22 over CFRC, Calgary. This Thursday evening broadcast at 8:15 will be repeated weekly, over CFRC, Edmonton the premier will speak weekly at 8:15 commencing Monday, October 23. The topics—Post-War Reconstruction and Security.

COMING EVENTS

Halloween Jr. Red Cross, Dance in Memorial Hall Friday Oct. 30th. Come one. Come all.

Teacher's Convention in Calgary, Oct. 29th. and 30th.

Broadcast of Grade IX students over C. F. A. C. Tuesday from 3 to 3:30 p.m. Billy Foley will go from Strathmore School.

HONEY HOMILY

—BY A SKY PILOT—

**DEMOCRACY'S FOUNDATIONS
AND PEACE**

General Sir Archibald Wavell has been reported recently as saying—"Think what a world we could make if we put into our peace endeavors the same self-sacrifice, the same energy and the same cooperation we use in the wastefulness of war."

You ask—"What would these be? We know the needs of war—guns, tanks, ships, planes, etc.—more and over more of them—but peace? What sacrifices does peace require of us?"

Peace makes its own demands and these demands are even more difficult to meet than those of war, but infinitely more worthwhile.

Put it this way—The course of civilization is eventually determined by the spiritual qualities of its people. The powers which determine the nature of any action for any individual are his own spiritual attitudes. Spiritual factors are always the factors which decide what use shall be made of the resources available to man, or to any generation. For example—The knife which in the hands of a maniac recently took the life of a young girl in one of our cities was of the same

make and quality with the one which a skilful and resourceful surgeon friend of mine used to perform an emergency operation and so save the life of his hunting companion when stranded in the wilds of the French River district a few years ago. Tools only carry out the desire of man.

As a young man I frequently had the pleasure of accompanying a friend of mine, a captain on a tug-boat, who on such occasions allowed me to steer the boat. I learned that when the power within the boat is inactive then the boat and pilot become helpless victims of current or gales. The boat, unless driven by some power within itself does not respond to the pilot's effort to steer it clear of rock or shoal.

So with the ship of civilization. Its motive power is the sum-total of the spiritual activities within the life of its people, and their attitudes give it direction.

If civilization is to remain one of democratic freedom for us then we shall need a greater degree of willingness to discipline ourselves. Peace, when won for freedom's sake, might once more be lost if we lack this self-discipline. We have at least come dangerously near to turning our freedom into license in the past. How else can we explain the failure of the "honour system of rationing" because

of which the country was compelled to adopt the more expensive system of coupon rationing? Had everyone been willing to make their share of sacrifices for the sake of the whole this would not have been necessary. Refusal to discipline ourselves has brought compulsory discipline for the sake of the war effort. Without it the war would have been lost!

Dictators arose all over Europe because of this same lack of disregard for the welfare of the nation by the individual within the nation. Strong-handed and brutal methods became necessary to stem the process of disintegration of national life. For this reason war is sometimes looked upon as necessary to weld people into a unity of purpose from time to time. Without such unity no war could be fought, nor won.

The writer thinks that the spiritual roots of war as well as those of dictatorship are found in the unpreparedness of multitudes to sacrifice their own prerogatives "for the sake of others", by which we mean the national whole. But he also believes that new spiritual attitudes producing full consciousness of the humanity of other peoples and races could be developed and that these would produce a much better and more worthwhile civilization, or culture. No war could be fought or won if we adopted the same "laissez faire" policy towards it which we adopt towards peace problems.

Peace, if properly pursued, will demand as large a measure of "self-sacrifice, energy and cooperation"—(to use Sir Archibald Wavell's words) as war, but on an infinitely nobler plane and for a vastly finer and more Christian purpose.

It was no less a soldier than Field Marshal Earl Haig who is on record as saying to the late Archbishop of Canterbury—"It is your job to make mine impossible."

It is the spirit of sacrifice for the sake of others and the good of the whole—this love for peace which we must seek to instill into our own and our children's lives. Earl Haig was correct in saying that this is the Church's job. The Church must be the moulder of the spiritual attitudes of life, because these same spiritual attitudes held today will fashion the world of tomorrow.

What other agencies than the Home, Church and School deal with the soul (mind and spirit) of man? Who but Jesus, the Great Master of Life has pointed the Way? Said He in the hour of consecrating Himself to His death on the Cross—"For their sakes I sanctify myself." Not for himself, but for others—for all mankind. Self was used only for others.

We too, must learn from Him to live that richer and fuller life of unselfishness and consecrate ourselves to the highest of all human service—the welfare of others,—the redemption of life from the scorching fires kindled by base selfishness and brutal greed.

"I say old boy, where do you eat around here?"

"In a cafe."

"No, no, I mean where do you get your food mostly?"

"Oh! on my vest."

Did you hear the story about the peacock?

No.
It's a beautiful tale.

Critic—By George, old chap, when I stand and look at one of your paintings, I stand and wonder—
Artist—How I do it?
Critic—No, why do you it.

Killing time is one way to murder opportunities.

A LITTLE NONSENSE NOW AND THEN

Once upon a time there were two little morons who lived in a little house on top of a hill. One night after the little morons had gone to bed one moron said, "There isn't enough room in this bed for both of us; would you mind getting out?" "Oh! no!" said the other moron. So he got out and lay on the floor. Finally after an hour or so the moron lying on the floor said, "It's cold down here. May I come up there?" And so the other moron said, "Sure come on up; there's plenty of room since you got out."

Say, who invented the doughnut?
Oh, I suppose some fresh air fiend.

Smith (reading statistics): Do you know that every time I breathe, a man dies?

Jones— Why don't you sterilize your mouth?

Lady— How much are your peaches?
Storekeeper— 3c each.
Lady— I'll take one.
Storekeeper— Throwing a party

Zebb— Why are the Ink Spots crying?

Ebb— I guess it's because their mother is in the pen.

You don't seem to realize on which side your bread is buttered.
What does it matter? I eat both sides!

Papa, what is the person called who brings you in contact with the spirit world?

A bartender, my boy.

FARMERS VICTORY TICKET

Under the "Victory ticket" plan, the farmer authorizes his marketing agent to pay the value of certain specified products to the National War Finance Committee in the province where he resides. This money is to be paid over for the purchase of Victory Bonds for the farmer at the time the produce is delivered.

Birch-oil is taking the place of synthetic wintergreen oil used in drugs, disinfectants, insect powders, candies and chewing gum.

A housewife walks about eight miles a day during her ordinary domestic duties.

ROCKYFORD

— By K. M. G. —

Mr. and Mrs. John Bragg have received a cable regarding the safe arrival in Britain of their youngest son, L. A. C. John Edwin Bragg who had just recently completed his Radio course in the east. Edwin lived at Rockyford where he received his schooling. After taking his 12th grade work here, took two years in Calgary and taught school three years at Lloydminster and Vermillion. He has a brother Russell in England and they hope to meet soon.

A sad accident occurred on the 14th when three children, two of Mr. and Mrs. Goss and Gail Sharon Bray found some gopher poison which they used in place of salt on some raw potatoes which they were eating. When the Doctors arrived at the 21-1/2 miles north of Rockyford Gail was in a critical condition, the other two drank milk which had contracted the effect; but the little girl was too far gone and passed away shortly after. She leaves to mourn her loss besides her Mother and Father, Mr. and Mrs. Edward Bray her grandparents, Mr. and Mrs. J. E.

Shaddock and Mr. and Mrs. Wm. E. Bray all of Calgary. Funeral services were conducted from the Park Memorial Chapel on Friday at 3:30 o'clock with Rev. J. Ralph Morden officiating. Burial was in the Burnsland Cemetery. Mr. and Mrs. Stone received word on Thursday of an accident on Wednesday Oct. 14th in which his aunt, Mrs. Geo. Hindson of Connaught Apts, Calgary, sustained a fractured right leg,

a broken collar bone, and several fractured ribs. She was taken to the Holy Cross Hospital. Mr. and Mrs. Hindson have gained many friends in their visits here and all extend their sympathy and wish for a speedy recovery.

Mrs. Nels White of Strathmore has kindly consented to take over Leyden School for the balance of the term. This school was left without a teacher

when the former teacher enlisted in the active forces.

Some of the Soldier boys who were home over the weekend were, Edwin Smith, Karn Wyman and Ike Reimer. Mr. and Mrs. Williams motored to Calgary on Saturday with their son Kelth who left on tonight train for the East. He had been on leave for a short time since he received his wings at Yorkton, Saskatchewan.

Mr. Walrod is back from his home at Kelowna for a few days.

A Kinaman Club Radio dance will be held at the Rockyford Hall on Thursday October, 22nd with the local Red Cross Society sponsoring the event. The pupils of Rockyford Public School are putting on a social evening on Friday Oct. 23rd in aid of the Red Cross. Lets all turn out and give them a boost in their efforts.

The Minister of Finance of the Dominion of Canada
offers for public subscription

\$750,000,000

THIRD

VICTORY LOAN

Dated and bearing interest from 1st November 1942, and offered in two maturities, the choice of which is optional with the subscriber, as follows:

Fourteen-year 3% Bonds Due 1st November 1956

PAYABLE AT MATURITY AT 101%

Callable at 101% in or after 1953
Interest payable 1st May and November
Bearer denominations,
\$50, \$100, \$500, \$1,000, \$5,000, \$25,000

Issue Price: 100%,
yielding 3.06% to maturity

Three and one-half year 1 3/4% Bonds Due 1st May 1946

PAYABLE AT MATURITY AT 100%

Non-callable to maturity
Interest payable 1st May and November
Bearer denominations,
\$1,000, \$5,000, \$25,000, \$100,000

Issue Price: 100%,
yielding 1.75% to maturity

Principal and interest payable in lawful money of Canada; the principal at any agency of the Bank of Canada and the interest semi-annually, without charge, at any branch in Canada of any Chartered Bank.

Bonds may be registered as to principal or as to principal and interest, as detailed in the Official Prospectus, through any agency of the Bank of Canada.

Subscriptions for either or both maturities of the loan may be paid in full at the time of application at the issue price in each case without accrued interest. Bearer bonds with coupons will be available for prompt delivery. Subscriptions may also be made payable by instalments, plus accrued interest, as follows—

10% on application; 18% on 1st December 1942; 18% on 2nd January 1943;
18% on 1st February 1943; 18% on 1st March 1943;
18.67% on the 3% bonds OR 18.39% on the 1 3/4% bonds, on 1st April 1943.

The last payment on 1st April 1943, covers the final payment of principal, plus .67 of 1% in the case of the 3% bonds and .39 of 1% in the case of the 1 3/4% bonds representing accrued interest from 1st November 1942, to the due dates of the respective instalments.

The Minister of Finance reserves the right to accept or to allot the whole or any part of the amount of this loan subscribed for either or both maturities if total subscriptions are in excess of \$750,000,000.

The proceeds of this loan will be used by the Government to finance expenditures for war purposes.

Subscriptions may be made through any Victory Loan Salesman, the National War Finance Committee or any representative thereof, any branch in Canada of any Chartered Bank, or any authorized Savings Bank, Trust or Loan Company, from whom may be obtained application forms and copies of the Official Prospectus containing complete details of the loan.

The lists will open on 19th October 1942, and will close on or about 7th November 1942, with or without notice, at the discretion of the Minister of Finance.

In conversation Sir Douglas Haile said to the late Archbishop of Canterbury— "It is your job to make mine impossible."

CANADA'S THIRD VICTORY LOAN

This week from Coast to Coast canvassers will commence their appointed tasks of selling Victory Loan Bonds.

This Loan stands pre-eminently over all preceding calls in that this is the most critical and crucial period of the war, following Dunkirk. Our armies in all branches are daily growing larger and better equipped. Our munition plants are rapidly increasing their output.

The Axis are not meeting with the quick and easy victory they anticipated. Rather there is a growing feeling of distrust as to the outcome, in their ranks. We are on the verge of the turning point in the Allies favor.

This then is the necessary time to back up the morale of our men in the forces by showing them we at home are behind them to the last dollar.

Can we do less when they are risking their all?

IN VICTORY BONDS YOU LOAN NOT GIVE YOUR MONEY

TO THOSE who question whether these bonds will be any good when the war is over, we reply on the authority of financial men.

Yes they will be good, backed by all the resources of the Dominion of Canada. The Bond value with accrued interest will be paid—if we win, as we shall win.

However to paint both sides of the picture, and this the dark one. In that case one's money would be worthless.

So buy Victory Bonds. Lend your money to provide the equipment for the men and women who are fighting to preserve our freedom. They cannot win without the necessary tools of war and food and clothing.

We must put this Loan over the top.

REMEMBER THIS

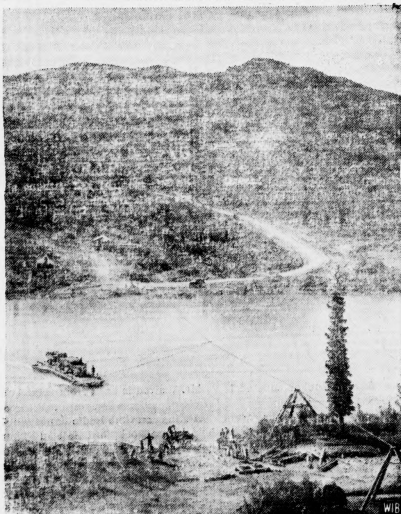

If you caught in a quicksand, don't thrash about. Scientists say your arms should stand still, keep your arms outstretched, and you'll quit sinking when you're almost up to your armpits.

NOTHING MATTERS NOW BUT VICTORY!

Pot Pourri

THE PORT OF LONDON

By Eleanor McKinnon

The port is dark. No friendly yellow lights twinkle through the blackness;

The outgoing tide sucks at the wharf piles, and they creak back and forth in their slackness.

But look, a ship, outlined by fog, like a ghost of the commercial past appears,

And as it slowly swings about and for the open ocean steers,

We ask, "What is its cargo? Supplies of guns, or food, or fighting men?"

No one can tell. Across the waters roll the chimneys of Big Ben.

Ship, where are you bound? Russia, Egypt... destination unknown.

Twelve o'clock, all's well, and the ship has sped on wings of foam.

NAMAKA

By M. W.

The Ladies Aid held an executive meeting and decided to call off the Fowl! Supper that was to have been held on November 3rd, the reason being so few to help. It was decided to ask for donations in order to meet financial obligations. Anyone wishing to donate may leave their with Mrs. Loy Wheeler or at the post office.

Miss Katherine Boehman and Isaac Wittenburg were married at Vancouver on Oct. 8th. The ceremony was performed by the Rev. Robertson. We wish the young couple very much happiness in the future.

Mr. Peter Smitten, Namaka's oldest resident, celebrated his 90th birthday on Monday Oct. 19th. Mr. and Mrs. Smitten came to Namaka from Scotland 35 years ago.

REVIVE HOME SPINNING FOR LADIES ONLY

This "World of Wheat" article is for farm women only. Men can pass it by. Wool is becoming quite scarce and will become more scarce as time goes on yet, farm women desire to continue knitting many articles for the use of their families and they certainly also wish to continue knitting for soldiers, sailors, and airmen in Canada and overseas.

Here is a simple solution. Ladies! Spin your own woolen yarns from wool from the sheep in your own district. It is much simpler than people think. The craft of washing, carding and spinning wool is quickly learned. The modern, inexpensive hand carder mill and spinning wheel are most efficient and take the hard work out of this most ancient of all household arts. In almost every district there will be found a worthy grandmother who will be delighted to extend to other farm women her knowledge of the interesting and useful art of spinning.

These homespun wools can be easily dyed, too, in attractive and fast colors.

THIS WAY TO ALASKA.

The great force of United States soldiers carving a highway to Alaska through the Canadian wilderness has conquered obstacles of all kinds. Through the bushland and across muskeg and rivers the road now extends for hundreds of miles. A typical ferry used by the army's engineers is shown in this photo. Utilizing the river's current, a barge forces its way across the end of a wire cable from shore to shore.

CONVERSION SURPLUS WHEAT INTO ALCOHOL, RUBBER IS ADVERTISED ERECTION OF DISTILLERIES IN WEST PROPOSED BY LINE ELEVATORS

"Necessity of finding new sources from which to derive essential products for successful prosecution of the war has created opportunities for expansion of the industrial utilization of Canada's surplus wheat. The Allied nations are faced with the necessity of immediately creating synthetic rubber and various forms of alcohol from products which readily lend themselves to this conversion," according to a statement issued today by the North-West Line Elevators Association.

"Wheat can be used in large quantities for manufacture of higher forms of alcohol for conversion into synthetic rubber. Wheat also is particularly suited for conversion into explosives, chemicals and high test motor fuels required by fast-moving fighting planes and bombers," the statement continues.

"More than two and one half years prior to the outbreak of war Line Elevator Companies advocated before the Turgeon Royal Grain Inquiry Commission that the Government give practical assistance in determining the possibilities of finding additional uses for farm products. Following this the Line Elevator Companies' representative visited the principal research laboratories in the United States to make a report on the possibilities of wheat and other farm products being utilized in industrial products. This report was laid before the Dominion Government, indicated a field for extensive use of wheat in manufacture of motor fuel, and to establish laboratories designed especially to conduct research into finding new and expanded uses for wheat and other farm products.

"Canada's carryover of wheat at July 31st, 1942, was 421,015,429 bushels. The 1942 crop is estimated at 587,000,000 bushels, an all-time record. The Government has indicated that it will take delivery of only 250,000,000 bushels of the 1942 crop.

"With the Japanese at her front gates Australia, in July of 1942, put into operation the first of four distilleries for conversion of wheat into power alcohol. When Australia's present power alcohol project is completed she will have four distilleries producing annually 12,000,000 gallons using approximately 5,000,000 bushels of wheat each year. If Australia can develop industrial uses for wheat in such a period of stress and danger as she is now passing through it should be possible for her to continue to likewise find new uses for our huge surplus stocks of wheat.

Abortive Agreements

"Nothing constructive is being accomplished to meet the present problem of the wheat farmer. It is true that an International Wheat Conference, in recent months, held a series of meetings. This conference was attended by representatives from Canada, Argentina, Britain, Australia and the United States. Certain conclusions were reached, to come into effect after the war.

"It is most difficult to share any optimism that an International Conference such as that held at Washington can or will have any appreciable effect on the post-war wheat situation. For any conference to be effective it must be attended by all interested National and particularly by those Canada and other exporting countries expect as wheat post-war customers. Such a conference is, of course, now impossible and may be for some period of time after the close of hostilities. Previous World Wheat Conferences did nothing to solve past and present wheat problems and there is little reason to expect any worthwhile results from future conferences. Importing countries have shown in the past that they will buy wheat from whence it can be most cheaply purchased," says the statement.

"Importing countries frowned on the attempts made by wheat exporting countries to dictate wheat prices in the decade following the Great War. These attempts added to their desire for self-sufficiency in production of foodstuffs. Both man and nation will resist price dictation and monopoly in the necessities of life. No wheat exporting nation or combination of wheat exporting nations, could long maintain a price cartel on wheat which would prove satisfactory to both producer and consumer. The interests of these two opposing factions are too remote to hope that any international Council, regardless of how powerful, could fix a price which would result in Canada maintaining

her role as the breadbasket of the world. Argentina demonstrated during the term of the last World Wheat Agreement that export quotas mean little or nothing when a country has a commodity on its shelves that its farm population has produced and must sell.

Expanded Markets Is Solution

"The position taken by the Line Elevator Companies prior to the War, was that solution of the wheat problem lay in expanding existing markets, rather than restricting production and placing quotas on sales of wheat abroad. That still is the policy of the Line Elevator Companies. In the return to free international exchange of goods, as soon as possible after the War, lies the real hope of the wheat farmer. Meanwhile every possible avenue of expanding uses for wheat must be developed.

"Wheat farmers have met the demands of the Federal government in reducing wheat acreage. The Canadian Wheat Board, by law, is permitted to accept delivery of only 250,000,000 bushels of the 1942 crop. What will the farmers do with the balance of the 1942 crop? That balance amounts to approximately 247,000,000 bushels.

"Canada and her Allies need high test motor fuels for their fighting airplanes. The higher forms of alcohols are also needed for synthetic rubber and alcohol in greater quantities than are now being produced. These necessary supplies can be obtained through conversion of wheat into various forms of alcohol such as ethyl alcohol, butyl alcohol and butylene glycol and which in turn can be converted into rubber.

Distilleries Needed in West

"Unfortunately the Line Elevator Companies were not successful, prior to the War, and in the early War years, in having the Government adopt plans for the erection of distilleries for the conversion of wheat into alcohol. At that time it was more simple to secure the material and labor required for the erection of the necessary plants for converting wheat into alcohol. The Government a few days ago announced that from November 1st the output of all distilleries will be directed to the manufacture of commodities required in the production of synthetic rubber and chemical and explosive needs of the Allies. To adequately meet the situation there should be taken to determine the advisability of erecting distillery plants at strategic points throughout the West for War purposes and in which wheat would be converted into alcohols required in the manufacture of synthetic rubber and into high test motor fuels for airplanes. The placing of these plants at strategic points in the Western wheat area would to that extent release railway equipment and lake vessels for other War uses instead of hauling such grain from the prairies to Eastern Canada.

"In addition, the large cane sugar refineries located on the east and west coasts might be converted for use in manufacturing wheat into alcohols for War purposes. There is difficulty now in importing sugar cane and Canada is approaching the stage where she will be dependent for sugar on domestic sugar beets. This development would leave the cane refineries with the useful function. The beet sugar factories can operate only four months of the year in extracting sugar from beets. The reason for this is that the sugar content in beets drops rapidly three or four months after they are harvested. Possibility of using the five large beet sugar factories located in Alberta, Alberta and Ontario for utilizing surplus wheat in our War machine during the remaining eight months of the year should be studied.

"Large scale utilization of wheat for industrial and war purposes would cause the government to increase its purchase of wheat from farmers beyond the 250,000,000 bushels which it now proposes to accept.

"While valuable time has been lost it is still not too late for the Federal Department of Agriculture to lead the way in finding a solution for the surplus wheat problem. Reduction of wheat acreage is no solution for the areas of Western Canada which are suited only to growing wheat. Neither are export wheat quotas the solution. Expanded uses now is the need," the statement concludes.

JOHN WEINZWEIG

whose outstanding ability as arranger and composer has been recognized by the CBC, will write the special music for an important new programme series, "Our Canada." The broadcasts have been written and prepared by the CBC Features Department to tell the story of Canada's growth, responsibility and achievement as a partner in democracy; a comprehensive report to the people of Canada on the meaning of nationhood within the boundaries of the great Dominion. The whole story of the people, the land and the spirit which gives the heart-beat to Canada will be told against a background of original music written by the Canadian composer John Weinzweig. "Our Canada" will be heard weekly commencing Sunday, November 1 at 9:15 p.m. CDT (8:15 p.m. MDT) over Station CBK Watrous on a Coast to Coast network of the CBC.

KITCHEN KINKS

Canada has practically completed her shipments of 125,000,000 pounds of cheese to Great Britain, and there is now plenty of cheese available for Canadians. This would be good news at any time, but is especially welcome now, when a temporary meat shortage exists. Cheese, being a concentrated protein food, is ideal for lunch box sandwiches. Housewives who pack daily lunch boxes for school children or workers will appreciate these recipes for cheese sandwich spreads, which were tested in the experimental kitchens of the Consumer Section of the Department of Agriculture. The spreads are delicious and nutritious and time saving saving, as they may be made in quantity and stored in the refrigerator for some time.

Spanish Sandwiches

- 2 tablespoons chopped onion
- 1 tablespoon butter
- 1 cup thick tomato pulp
- 1 egg, well beaten
- 1 cup grated cheese
- 1-2 teaspoon salt
- Dash of paprika

Saute the onion in butter 5 minutes; add tomato pulp, cheese, salt and paprika and cook 5 minutes longer or until cheese is melted. Stir small amount into the egg; return to the hot mixture and cook 2 minutes longer. May be served hot on toasted bread or stored for future use.

Cheese Sandwich Spread

- 1 hard-cooked egg, chopped
- 1-2 lb. cheese, grated
- 2 tablespoons minced onion
- Dash of cayenne pepper
- 1-4 teaspoon salt
- 1 tablespoon butter
- 1 tablespoon granulated sugar
- 1 tablespoon flour
- 2 tablespoons vinegar

1-2 cup top milk or evaporated milk. Add the grated cheese, onion and salt to the chopped egg. Melt the butter in a double boiler; add the sugar and flour, blending well. Add the vinegar, milk and pepper while stirring and cook over hot water until thickened. Combine with the cheese mixture and store until needed.

GEORGE SNAITH
Phone 43 ● Strathmore

Mrs. Geo. Runnalls who has been the guest of her sister, Mrs. Moore, left Saturday last en route to her home near Port Hope. She visited friends in Winnipeg over the weekend.

Mrs. M. S. Hirtle returned Friday last from Sackville N. B. where she had visited her Mother and a number of other friends.

During her visit Mrs. Hirtle saw Wilson Walls and Allan MacDonald, both former strathmore boys. Wilson is now taking training for Flying (active) and Allan is in the Navy. Both were well, and very glad to see someone from home.

Mr. and Mrs. Patrick have as house guest for two weeks, Arthur Stanard of Norfolk, England, who is in the R. A. F. No. 37. Mr. Stanard is recuperating after an operation for appendicitis, and Mr. and Mrs. Patrick offered the hospitality of their home. This is a kindness that doubtless many of the men in uniform would greatly appreciate, and the opportunities are many.

Mr. and Mrs. Cecil Lambert have returned from a short visit to the Coast.

Mr. and Mrs. E. N. Ridley and Murray returned Monday after a three weeks visit at Victoria and Vancouver. They spent much of their time with Frederic, who is looking exceedingly well and thoroughly enjoying his occupation.

Lt. Ian MacKenzie is expected home from Brandon during the week-end for just two days. It had been anticipated he would have two weeks leave and this shortened time is disappointing. However, it is better than none at all.

Frank Bisacre is now stationed in B. C.

Mrs. Wm. Risdon and three young-est children left Strathmore Saturday for Calgary, where they will make their home for the future. The Risdon's have been valuable citizens and we regret their loss to our town. We are glad however that a member of the family - Geo. and his wife will remain to continue the connection in Strathmore.

A fire from over heated hay in the loft of Stanley Lugg's barn occurred Tuesday morning. The fire brigade was on the scene soon, and succeeded in putting out the flames before the outside walls of the barn were burned. A quantity of coal in the barn was water soaked but fortunately no other damage was done.

Rev. and Mrs. Hunt will have as guests over the week-end the former's brother and his wife from London Ont.

Leonard Wheeler who had his tonsils removed about three weeks ago has had a very sore and somewhat serious time, as hemorrhaging set in. Leonard is now recovering though slowly. He has enlisted in the R. C. A. F. but the Board sent him home to remain until he has recovered his strength.

C. F. A. C. BROADCAST Oct. 27 3 — 3:30 p.m.

Sponsored by the National War Finance Committee, Students of Grade IX from Edmonton, Calgary, Lethbridge, Carstairs, Strathmore and Claresholm and Medicine Hat are going on the air Tuesday next. Billy Foley will represent Strathmore. Tune in your radios and hear your local boy.

Mr. and Mrs. J. D. North have rented their farm and will move, in a few weeks, into their Strathmore house to reside.

Wednesday of last week quite a number of friends called on Mrs. Peterson on the occasion of her birthday to enjoy a pleasant afternoon and to extend wishes for many more years of health and happiness.

Ken Hay is enjoying the week in Calgary learning much about the proper feeding and care of pure bred live stock.

The engagement is announced of Andrew Garret second son of Mr. and Mrs. M. B. Garrett of Strathmore, to Miss Lucille Smith of Edmonton, the wedding to take place Nov. 7th. in Edmonton.

Clarence Van Tighem is now in the R. C. Navy (active) and expects to leave for Halifax for training early in November.

"The Balkans will take revenge on those who have tyrannized them for so long." —Anthony Eden.

"The time to conserve food is while you still have something to conserve." —Claude R. Wickard.

"NAZI EYES ON CANADA"

Oct. 25th Show — Orsen Welles.

Orsen Welles, writer, producer, and director is flying to Toronto, Sunday, October 25th, to contribute his services on behalf of the Canadian Victory Loan. He stars as a Weekly Newspaper editor in the last of the dramatic series "Nazi Eyes on Canada", to be broadcast over a coast-to-coast network Sunday, October 25th, at 7:30 p.m. E.T. 5:30 p.m. M.T.

For this broadcast Mr. Welles becomes a newspaperman. He will assume the part of Sam J. Dorman, Editor of the Alameda "Dispatch", Alameda, Saskatchewan. The broadcast will show by the description of everyday Alameda Community folk, how their lives would change under the tyrannical heel of Nazi Conquerors.

FOOLPROOF IDENTIFICATION

Every man and woman in the Canadian Army is to be photographed, finger printed.

The photographer takes the picture not only of the subject himself—but of his finger print and identification card.

As soon as the rolls of film have been taken they are mailed to Ottawa where they are developed by special mass methods.

Prints are struck off individually at a surprising rate with a "magic eye" which ensures that each one will be brought out clearly.

The new cards will not supersede the present identification discs, but will provide foolproof identification for every man in uniform and every civilian in the department.

C. P. R. FARM AGAIN TOPS IN MANY CLASSES

At the Calgary Fall Show and Sale of Live Stock the C. P. R. Farm again brings the ribbons. This is good going.

In the Yorkshire Swine herd classes C. P. R. won 3rd. in aged boar and 1st. and 3rd. in sows. Also the Grand Champion for sows. Thirteen sold for an average of \$60 with champion boar bringing \$90.

In the Boys and Girls lamb classes Charlie Stephens won 1st. Billy Stephens won 2nd. Ken Hay won 3rd.

Charlie Stephens also won Grand Champion in the Market lambs class. In the boys and girls swine classes Charlie Stephens won 1st.

Billy Stephens won 2nd. Ken Hay won 3rd.

In lamb trimming, Charlie and Billy Stephens won 1st. and 2nd.

In the sheep competition Strathmore won both, Championship in Hampshire and Grand Championship in Suffolk.

ONE OF THE OLDEST PLANTS

The mangel appears to be one of the oldest of cultivated crops and at least can be traced back to 2000 B. C. An old plant found in an Egyptian tomb represents a laborer placing a large root or mangel on a table as a sacrifice.

AIR FORCE NOTES CONCERT PARTIES TOURING PROVINCE

Where the dollars go that Albertans will subscribe in the Victory Loan campaign will be dramatically illustrated by two concert parties composed of talent from the three armed services which are touring the Province from October 18th through to the close of the Victory loan drive. Many novel skits will forcibly bring out the need for more and more dollars to keep the Canadian War Machine at full speed ahead.

One of the dramatizations will be the dressing of an airman from his boots to full flying kit and each item as it is donned will be priced giving in detail the cost of outfitting one member of an R. C. A. F. aircrew team. When this is multiplied by the number of crewmen in a modern bomber and again by the hundreds of bombers participating in present day raids over Nazi Germany, the magnitude of the cost of providing for our fighters is brought closer to home. Flight Lieutenant C. F. Kearns of No. 7 Service Flying Training School, Macleod is responsible for the preparation of this particular item on the programme.

Concert at Gleichen Oct. 21 at 8 p.m.
